

LOG - additional task for every week

You are required to record your study session **each week** in a form of log.

- Each row are worth 30 minutes of activity.
 - If you have 1 hour session at 14:00 to 15:00, make two row for that session.
- Each row are sorted by time and dates (the newest will be at the bottom).
- Any activity are categorized into 3 different categories, that is:
 - a. Learning and Review (code: LR, this is including reading books, watching OS related video, listening to lectures, etc),
 - b. Practice Session (code: PS, this is including doing lab session, problem solving, etc),
 - c. Discussion Session (code: DS, this is including discussion with anyone and anytime that deepen your knowledge about the OS related matter).
- Specify the detail of each activity in any way you want, with clear information.
